

Kind Human 4 Human Kind Mission Statement

We believe in building a diverse community that offers inclusion and integrity. In order to achieve equitable opportunity for marginalized members, we procure and distribute resources and build strategic partnerships. By holding clothing, food, and toy drives; delivering survival bags, and refurbishing households, we work to level the playing field, restore integrity, and offer members a place to belong.

Our vision is that KH4HK is a refuge for everyone including BIPOC, LGBTQIA+, Differently Abled, Neurodiverse, Military Veterans, Impoverished and any other disenfranchised people and their allies to land, heal, and share, so that we find in ourselves the ability to be authentic in living our lives with the knowledge that we are complete, equal, and valuable persons in all places. We will aid with food and clothing insecurity, resources for other organizations who offer complimentary services, as well as offering an opportunity for those who feel alone or outcast to find community and purpose. We will also help individual families that have had recent tragedies begin to recover the possessions they have lost.

Strategic Objectives

Build Human-Centered Capacity and Resources: We will build a diverse community where all who engage with KH4HK feel known and cared for, are able to access helpful resources, are connected with others in KH4HK online and in-person, and have the opportunity and resources to contribute toward achieving KH4HK's mission.

Increase Visibility and Accessibility: We will expand our ability to reach and be found by those who would benefit from KH4HK's community and resources, increase awareness of KH4HK within the BIPOC community, LGBTQIA+ community, differently abled community, veteran community and low income community to provide resources in diverse mediums and formats, and effectively communicate KH4HK's mission and impact.

Foster Collaboration and Dialogue: We will seek partnerships with organizations serving the BIPOC, LGBTQIA+, military and veteran, impoverished and disabled communities and those serving all wider disenfranchised communities. We will seek opportunities, and empower all in KH4HK who desire to effectively dialogue with leaders and members of the overall community to promote greater understanding and acceptance.

Develop Financial Strength: We will identify, engage with, and build relationships with those willing to financially support the mission of KH4HK. We will be transparent and accountable for how fiscal resources are used and their impact.
